

Features added to Troy Vision V3.0.38.0

Importing

Importing data into Troy Vision has enhanced within this release. From this version onwards you will be able to import

- Education / Qualifications
- Employment History
- History
- Attach CV's and external documents

For more information on importing please refer to our website <https://www.troysoft.com/importing>

Candidates on a job

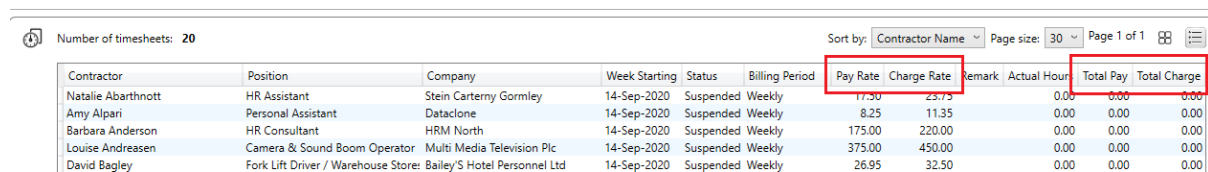

When 'drilling' down to a candidate from the job list and either a new history note or a call is created, the job details are automatically pulled through. When saved, the status of the candidate on the job list is changed to the status selected on the note or call.

Previous Employees

The display of previous employees against a company has been enhanced so that it now displays who the individual currently works for. This information is displayed alongside their position within brackets.

Timesheets

The main timesheet window now shows the standard rate of pay & charge, plus the total pay and charge for each timesheet.

Contractor	Position	Company	Week Starting	Status	Billing Period	Pay Rate	Charge Rate	Remark	Actual Hours	Total Pay	Total Charge
Natalie Abarthnott	HR Assistant	Stein Cartermey Gormley	14-Sep-2020	Suspended	Weekly	17.50	23.75		0.00	0.00	0.00
Amy Alpari	Personal Assistant	Dataclone	14-Sep-2020	Suspended	Weekly	8.25	11.35		0.00	0.00	0.00
Barbara Anderson	HR Consultant	HRM North	14-Sep-2020	Suspended	Weekly	175.00	220.00		0.00	0.00	0.00

Database searching

It is now possible to perform an 'is blank' search on status, consultant and user fields. The 'is blank' search will locate items which have not been allocated a status, consultant or a user field group.

Features added to Troy Vision V3.0.38.0

Must have all ticked items
 At least of one of the ticked items
 Exclude the ticked items
 Is blank

Years Experience
 Years Experience
 Years Experience Exactly

Include Unknown Experience

To perform an 'is blank' search simply select the field that you wish to search upon and select the 'is blank' option which appears below the items to select. Obviously for an 'is blank' search you do not need to tick any items as these will be ignored.

Other

A Problem has been resolved when storing emails and the email subject to be stored was blank. This caused an exception fault, and the rest of the emails were not stored.

An issue when publishing jobs to a MySQL database has been resolved.
