## Features added to Troy Vision V3.0.59

### Employment Dates

When creating or editing employment for a candidate it is now possible to enter the actual employment date rather than just the month and year. A new setting within the creation settings for candidate and contacts controls this functionality.

Creation Settings and Mandatory Fields

Candidates / Contacts Companies Jobs Contracts Mandatory Fields Address Locations CV Scanning Completion Rules

**Qualifications**  
Alternate descriptions for the qualifications sections within Troy. Leave blank if you wish the standard Troy title to apply  
Section Heading:   
Education:  Degree:   
Professional:

**Other Settings**  
Default status:   
Allow D.O.B:   
Create candidates as:  Interested in permanent work  Interested in contract work  
Default location:   
Set candidate as:  when a placement is removed  
Employment creation:  Sync user fields with selected company  Allow entry of the employment actual date

**Candidate Summary**  
Candidate summary text can be used within send out email templates. Click one of the options below to choose how the candidate summary text is to be retrieved  
 Candidate summary not in use  
 Use the candidate notes  
 Use the latest history note entitled with text below
