

## Features added to Troy Vision V3.0.61.0

### Job Window

The job description displayed within the candidate tab of the job window has been changed to include the location (Town) and salary range or pay and charge rates.

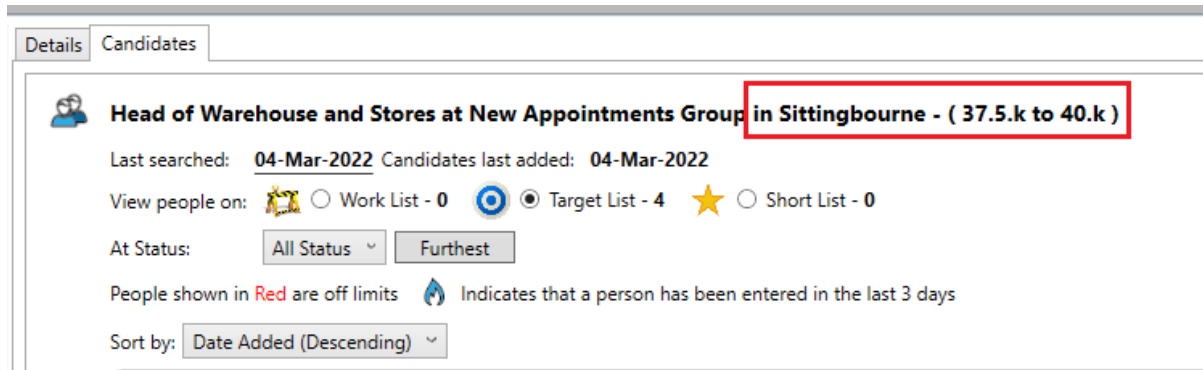

Fig 1 – job description now includes location and salary range

### Job list within the 'at a glance' view

A new Salary / Fee or Pay / Charge Rates column has been added to the list of active jobs shown on the initial Troy window. The potential fee is calculated by using the starting salary and commission rate.

The screenshot shows the 'Jobs for team - The Dream Team' view. A table lists active jobs with columns for Job#, Company, Description, Type, Salary/Fee, Status, Consultant, Considered, Submitted, and Interviewed. The 'Salary/Fee' column is highlighted with a red box.

Job#	Company	Description	Type	Salary/Fee	Status	Consultant	Considered	Submitted	Interviewed
00030700	New Appointments Group (Sittingbourne)	Head of Warehouse and Stores	Permanent	37.5k (3625)	Active	DAZZA	0W/4T/0S	0	0
00030699	Lipson Lloyd-Jones Ltd (London)	Head of Purchasing	Permanent	56.5k (8475)	Active	DAZZA	0W/0T/0S	0	0
00030698	Sheffield Black Initiative (Sheffield)	Stores and Warehouse Manager	Contract	17.25 & 21.95	Active	DAZZA	0W/0T/0S	0	0
00030697	Wolviston Management Services (Stockton On Tees)	Regional Sales Manager	Permanent	45k (6750)	Active	DAZZA	0W/1T/0S	0	0
00030694	O'Shea Office Equipment Limited (Slough)	Sales Executive	Permanent	22.5k (3937.5)	Active	DAZZA	1W/11T/6S	0	6

### Main Window – People View

This window has been enhanced with a new tab entitled 'Considered'. This tab allows the consultant to view candidates owned by them which have been added to jobs over a period of time. They can also see the candidates that they have added to jobs over the same period.

Team leaders and administrators can see other consultants and teams, where as a 'normal' user will only be able to see their own or team candidates.

## Features added to Troy Vision V3.0.61.0

Simply choose the team or consultant, tick whether you want to see the candidates you added to the job, tick if candidates added to the Work List are to be ignored (Exec Search or Interims only) and then choose a date range. If you wish to see the actual candidates make sure the tick box to show list in summary is **not** ticked. The summary option will show job details and the number of candidates added.

Double clicking on a candidate will show the candidate in more detail. If you wish to view the job, right mouse then choose 'View Job' from the resultant menu. This menu will also allow you to export the data to Microsoft Excel.

### Job Alerts

It has been possible for some time to configure alerts so that candidates are automatically sent an email and / or an SMS when a suitable new job is added to the system. It was previously necessary to run the Troy Command Centre to periodically scan for new jobs and send out the appropriate notifications. That functionality has been added into Troy Vision and so the Command Centre is no longer required at all. Please refer to [Candidate Job Alerts](#) for configuration details.

### Other

It is now possible to export the list of candidates within a job to Microsoft Excel. This is achieved by right mouse-clicking upon the list and choosing the 'Send to Excel' option from the resultant window. This menu option is only available when viewing the candidates within a column list.

The list of upcoming interviews shown on the initial Troy window can also be exported to Microsoft Excel, using the same method as the list of candidates above.
